F. Let Us Write (Page 112)

Complete the paragraph using the phrases given in the textbook.

Today, I defeated Surya in a badminton match, but I did not feel happy about it. He was playing very well and was getting the points easily. I was sure that I would lose the match. So, when everyone was laughing at a joke he cracked, I managed to change the scoreboard. No one noticed the change and I won the match. What surprised me the most was that he said he had fun playing with me. How could he be so relaxed after losing a match? He should have been sad, if not crying over his loss!

Though everyone congratulated me after my win, I did not enjoy it as I usually do. It really disturbed me that Surya did not feel bad about losing the match. It is still bothering me. Is it because I changed the score? I do not understand myself. Let me sleep now. I feel that it may make me feel better. Goodnight!

Moral of the story: Winning is not everything. We should enjoy playing, follow the rules, and respect our opponents.
